Introduction to the National Coastal Resilience Fund's Field Liaisons

What is the National Coastal Resilience Fund?

The National Fish and Wildlife Foundation's (NFWF) National Coastal Resilience Fund (NCRF) restores, increases and strengthens natural infrastructure to protect coastal communities while also enhancing habitats for fish and wildlife. Established in 2018, the NCRF invests in conservation projects that restore or expand natural features such as coastal marshes and wetlands, dune and beach systems, oyster and coral reefs, forests, coastal rivers and floodplains, and barrier islands that minimize the impacts of storms and other naturally occurring events on nearby communities. For more information about the NCRF, visit **nfwf.org/programs/national-coastal-resilience-fund**.

How can a Field Liaison assist with the NCRF process?

As Field Liaisons, Throwe Environmental, LLC supports the NCRF program by:

- *Promoting climate resilience and the NCRF program*
- *Providing follow-up and feedback on proposals that were not selected for funding*
- *Supporting existing grantees through check-ins and troubleshooting*

What is Throwe Environmental?

Throwe Environmental, LLC assists federal, state, and local governments; institutions of higher learning; businesses; and nonprofit organizations in finding innovative and effective solutions to a broad array of environmental challenges related to environmental finance, water infrastructure, and the impacts of climate change. Visit our website at **throwe-environmental.com**.

Throwe Environmental has been contracted by NFWF as the Field Liaison for the NCRF, and has made it a priority to spread awareness of this funding opportunity and its potential to help coastal communities reduce their vulnerability to flooding and erosion issues, while also enhancing fish and wildlife habitat.

How do I learn more?

To learn more about the NCRF, or to reach out about a potential, existing, or future proposal or grant award, please contact the team via email at **info@throwe-environmental.com** or phone at (401) 429-3845.
