

ST. MARY'S COUNTY, MD: MILITARY INSTALLATION RESILIENCE REVIEW

COMMUNITY: St.Mary's County, MD and Naval Air Station Patuxent River (NAS PAX)

FUNDER: Department of Defense (DoD) Office of Local Defense Community Cooperation (OLDCC)

PARTNER: Low Impact Development Center

TIMELINE: June 2023 - September 2024

PROJECT DELIVERABLES:

- Technical expert and stakeholder engagement
- OLDCC Collaboration Forum
- Peer-to-Peer Leadership Exchange
- Comprehensive literature review
- Climate Mitigation Strategy and Project Portfolio
- Climate Action Funding and Financing Roadmap
- Resilience Study Final Report & Executive Summary

Project Overview

In partnership with the Low Impact Development Center (LID Center), Throwe Environmental (TE) is working with St. Mary's County and Naval Air Station Patuxent River (NAS PAX) to perform a Military Installation Resilience Review (MIRR). Funded by the Department of Defense's OLDCC, this project will explore how to enhance the resilience of NAS PAX by way of enhancing the resilience of surrounding St. Mary's County.

TE will conduct in-depth research, engage stakeholders, and host a Peer-to-Peer Leadership Exchange with Naval Station Newport (RI) to develop a comprehensive implementation and funding framework to enhance community resilience. The final report will include information on climate hazards, vulnerable assets, recommended resilience actions and project portfolio, and funding and financing recommendations to guide project implementation.
