

# Throwe Environmental

*"Building community resilience through leadership, action, and investment"*

## ABOUT US

TE helps federal, state, Tribal, and local governments; military installations; academic institutions; businesses; and nonprofits find innovative and effective solutions to an array of environmental challenges.

We have a background in climate and environmental finance, resilience action planning, policy analysis, technical assistance, community engagement, and leadership development.

Our goal is to enable our clients to address their environmental challenges through resilient, sustainable, and practical methods.

## WHAT WE DO

### Create sustainable investment systems

We build resilience financing frameworks that prioritize long-term revenue generation and efficient cash-flow.

### Develop climate action plans and strategies

We help communities identify and prioritize climate mitigation and adaptation projects and programs, with a focus on implementation.

### Engage community leaders and stakeholders

We facilitate peer-to-peer learning and connect communities with funding and financing tools to advance their climate goals.
