

Capability Statement

ABOUT US

Throwe helps local, regional, state, Tribal, and federal governments; nonprofits and local organizations; military installations; businesses; and academic institutions find innovative and effective solutions to broad array of community challenges. We have backgrounds in climate resilience; funding, finance, and investment; public policy and planning; natural resource protection and conservation; technical assistance and outreach; community engagement; and leadership development.

WHY TEAM THROWE?

With former state, local, and nonprofit leaders on staff, Team Throwe has unparalleled experience advancing community resilience. Our team is small but mighty – allowing us to work nimbly, adaptively manage projects to address our clients' needs, and connect directly with communities across the country.

WHAT WE DO

Create sustainable investment systems

We build resilience financing frameworks that prioritize long-term revenue generation and efficient cash-flow.

Develop climate action plans and strategies

We help communities identify and prioritize climate mitigation and adaptation projects and programs, with a focus on implementation.

Connect communities with funding and financing

We provide targeted technical assistance to help communities access a range of financial tools for resilience and environmental projects.

Engage state/local leaders and stakeholders

We facilitate peer-to-peer learning and connect communities with funding and financing tools to advance their climate goals.

WHERE WE WORK

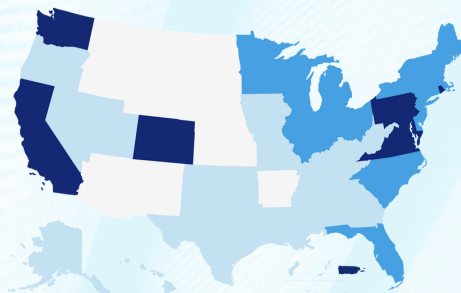

Based in RI. Team members in RI, MD, DC, VA, WA, CA, CO, PA, and PR.

Priority geographies include **New England**, the **Mid-Atlantic**, and the **Great Lakes**.

Technical assistance provided in **more than 42 US States and Territories**, including **all of the coastal US**.
